By FOLIO Staff

The University Board of Governors and its Executive Committee met Friday, October 6, 1972.

### CLOSER SCRUTINY OF NEW PROGRAMS

On the recommendation of the Academic Development Committee, a number of revised procedures for approving new programs, departments and negotiated development grants have been adopted by the Board. The new procedures are as follows:

**3.3 NEGOTIATED DEVELOPMENT GRANTS**  
A proposal for a negotiated development grant be referred by the member or members of staff making the proposal to the departments, faculties, or schools concerned, for their comments, before being submitted to the General Faculties Council Committee on Research. The General Faculties Council Committee on Research would then add its own observations before forwarding the proposal to the Academic Development Committee for consideration. The Academic Development Committee would then have before it the opinions of all the parties concerned, whether they were in favor of or were opposed to the submission of an application by the University, before sending it forward to General Faculties Council.

#### **3.4 RECOMMENDATION TO GENERAL FACULTIES COUNCIL**

That normally the Academic Development Committee recommend to General Faculties Council annually in the Spring a list of approved proposals for new programs, both undergraduate and graduate, for the establishment of new departments and for negotiated development grants that were made in the preceding 12 months, with the priorities assigned by the Academic Development Committee attached. The Academic Development Committee reserves the right, however, to recommend to General Faculties Council a new program, the establishment of a new department, or approval of a negotiated development grant at any time.

#### **3.5 GENERAL FACULTIES COUNCIL THEN REFERS TO UNIVERSITY PLANNING COMMITTEE**

After approving the proposals of the Academic Development Committee, General Faculties Council refer them to the Board of Governors for information and to the University Planning Committee for consideration of budget and space implications.

The University Planning Committee consider the budget and space implications and make recommendations to the Board of Governors on priorities for the construction and development of new space and facilities.

### INCOME TAX EXEMPTION — PROFESSORS FROM OTHER COUNTRIES

*The following notice has been received from M. A. ROUSELL, Comptroller.*

The Department of National Revenue, Taxation, has issued a new Bulletin No. IT-68 dated September 13, 1972, which affects professors now in Canada from other countries who are presently being paid without income tax deduction because of their intent to remain in Canada for a period not exceeding two years.

Effective immediately the University is required to commence making deductions for Canadian income tax, Canada Pension Plan contributions, and Unemployment Insurance premiums from the salaries of such professors. If staff members to whom this is applicable have not filed a Form TD-1-Claim for Personal Exemptions - with the Payroll Division (or if their exemptions have changed) it would be in their best interests to do so. When a professor, after terminating his stay in Canada, satisfies the Department of National Revenue that he qualifies for exemption he will

receive a refund of the income tax and the Canada Pension Plan contributions.

A copy of the new Bulletin is being mailed to each professor involved. Other interested persons may obtain a copy from the Payroll Division of the Office of the Comptroller.

### LECTURES FOSTER UNDERSTANDING

MRS. SHEILA DE CHAZAL, OBE, will be a guest on campus October 25 to 27. She is on a lecture tour in Canada and the United States under the auspices of the British-American Associates (a 40-year-old non-profit organization formed to foster better understanding between Britain and America). While on campus Mrs. de Chazal will be speaking to students in the Department of Political Science and the Family Studies program of the School of Household Economics, and will give a public lecture (see "This Week and Next," 26 October).

The first of the colloquia was held on October 18 and subsequent ones will be announced in "This Week and Next."
